## Word List Duplicate Remover Crack +

Remove duplicate words from your documents. Are you a writer and you often create documents with a lot of duplicates? Then Word List Duplicate Remover (WLDR) is the right tool for you. WLDR eliminates duplicate words from your documents. WLDR is fast and easy to use. Three methods to achieve it. Method 1: Select your files in Explorer, go to the folder of all your documents and delete the files. The entire folder should be deleted. Method 2: WLDR uses the file tag to identify duplicate files. Method 3: Change tags, WLDR won't find the duplicates any more. • What is the different between the installer and the exe file? The installer runs automatically when you click the exe file. You don't need to run it manually. • How can I get the installer? It is available in the DOWNLOAD folder on the second page. If you can't find it there then you can download the installer from here. • What is the default language of WLDR? The default language is English. • How can I change the language of WLDR? Go to the WLDR folder and open the WLDR.ini file. Edit the language you want, such as en, fr, etc. • Can WLDR support batch processing? Yes, You can batch process it. • How can I export the list to Anki? If you selected the correct output format, WLDR will ask you to choose the destination folder for the output. The destination folder can be a zip folder, a word document or a txt file in your default text file, and so on. After you have selected the destination, click "Save". • How can I get anki themes? Go to THIS link to get the themes. • How can I save the original file? Click the "Save Original" button and it will open a prompt window. Just input the extension of the selected file and a save dialog will appear. Click "OK". • How can I get help? Click the "Help" button on the main interface, then select "FAQ". There is a question list on the next page. If you are running Windows and have been trying to install Word List Duplicate Remover and it keeps telling you that it needs to install some language, then we
